Dear Gary:

It was a pleasure working with you during the construction of our new home. As you know, our architect, Keith Summerour, had recommended you as his clear number one choice for roofing. Knowing Keith's unwavering commitment to excellence, I had no doubt that the quality of your work would be superior. You certainly did not disappoint. In fact, numerous people in the construction field who have seen our finished home have offered unsolicited praise of your workmanship.

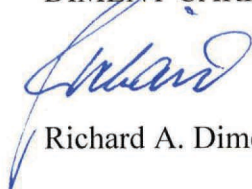

In addition to your workmanship, however, I appreciate how easy you made it to work with you. You were efficient, dependable and honest.

I have come to appreciate, through experience, a contractor who delivers superior performance, and would welcome the opportunity to reward that performance. Please feel free to provide my name as a reference to any prospective customer.

Thank you.

Sincerely,

DIMENT CARROLL LLP
