Re: Roofing Specialists, Inc.

To Whom It May Concern:

I had the opportunity to work with the above referenced Roofing Specialists (then doing business as C&G Industries, Inc.) on a project for the City of Decatur, Georgia, in 2003. The project consisted of relocation and stabilization of a railroad depot building and included the replacement of approximately 85 squares (8,500 sq.ft.) of standing seam metal roofing. The roof configuration was a fairly complex hip with cross-hip and included a concave profile at the perimeter.

C&G Industries, Inc. did a very professional job with great attention to detail, craftsmanship and performance. The General Contractor, the City of Decatur and I were all very pleased with their work and it is without hesitation that I recommend Gary Shank and his company to you.

Very truly yours,

W. Lane Greene
